“ *Gary was a very knowledgeable and skilled Manufacturing Engineer. My first assignment working with Gary was at NASA New Orleans restarting their machine shop. We served a range of tenants on the large campus. Gary designed and built a gun mount for small Coast Guard vessels, improving the original mount. Gary also built some heavy movement devices used for special effects in the movie G.I. Joe Retaliation, filmed on site at NASA New Orleans. Just a sample of some of things Gary did in his career.*
