“ *Flo and Family:*

I worked with Marvin as a co-manager at the Kingston Fossil Plant between 1980-1991 and I always admired his integrity. I was hoping when there were changes to the Plant Superintendent's position he would get the promotion and I could work directly for him. I believe he was equal or above those who got the nod in this position while I was at the plant. I know he loved his family and demonstrated this love on the job and in most of our conversations.

May you always have peace and know other persons enjoyed their relationship with him.

“ *To Flo and children, I loved Mr. Mo and always enjoyed seeing his smile. His sense of humor was welcome anytime around me. I still giggle every time I think of him because of some of the funny things he would tell me. I really am going to miss seeing him. I am glad I had the pleasure of sharing some of this life with him.*

“ I just want to take a minute to tell Mo's wife and children how much he meant to me. Mr. Moseley gave me a job in 1975 at Kingston and it was the greatest opportunity of my life. For this I will always be beholding to Mr. Moseley. He was and is a great man who cared for the people that worked for him and cared for me and for this I am thankful to have had the opportunity to know and admire M.J. Moseley.
