

## Warner I. Clifford

August 24, 1935 - March 18, 2009

A wonderful husband, friend and colleague, Warner Clifford, 73, of Kingston, TN, passed away at his home Wednesday, March 18, 2009. Born August 24, 1935 to Gardner and Janet Clifford in Worchester, Mass. Married for 50 years to Bernice Huffman Clifford.

A Registered Professional Engineer and Civil Engineering graduate from Worcester Polytechnic Institute, Warner retired from Stone & Webster Engineering Corporation in 1994 as Senior Vice President and member of the Board of Directors. As Senior Director of Construction and President of Stone and Webster Construction Company, he presided over all of the company's construction activities worldwide. Notable projects were the Beaver Valley Nuclear Power Station, Clinch River Breeder Reactor, River Bend Nuclear Power Station, and Comanche Peak Steam Electric Station. He was executive sponsor of Stone & Webster's South Region, where he provided oversight to the corporation's activities at TVA's nuclear and fossil power projects.

Warner's life is celebrated by his wife, Bernice, and his daughter, Deborah Wright and grandsons and 2 brothers,

A private memorial service will be held for the immediate family.

“ I was very saddened to hear that Warner had passed away. I started my career working for Warner at Stone & Webster at the Riverbend Nuclear Project in Louisiana. He was a superb, professional manager and was a role model for me and many others on that and subsequent projects. Always in firm command and control yet respectful and professional to all of his team members. My condolences and best regards to his family.

“ Warner embodied the essence of Stone and Webster....forthright, honest, fair, no nonsense, smart, and self sufficient. He always brought out the best in us as individuals and as a team. I will miss him a lot.

RR

“ I worked with Warner in the Stone & Webster Construction Department for several years and interfaced with him for the 20 plus years I was there. Warner was a real construction guy. Tough and hard at times, but always fair. He spoke his mind, but you knew where you stood and could trust him. He will be missed by many of us from the old SWEC days. My deepest condolences go out to Bernice and family.

“ I am sad to learn that Warner passed away. I worked with Warner on a number of projects over the years with Stone & Webster. I first met him at River Bend where we worked together from start to a very successful finish. We also worked together at Comanche Peak and the Chattanooga office and TVA projects Watts Bar and Bellefont.

Warner brought a sense of team work, a can do attitude and was respected among the different departments. Under his very capable leadership we successfully completed many projects. There were some memorable moments that I never forgot. He will be missed. Warner was a great person and I was fortunate to learn a lot from him.
